Fall 1905

GOLD MEDAL

Louisiana Purchase Exposition, St. Louis, 1904.
Awarded us for *Nephrolepis Piersoni elegansissima*.

GOLD MEDAL

Highest Award, Pan-American Exposition, 1901.
Awarded us for LARGEST and BEST COLLECTION of BULBS.

GOLD MEDAL

Awarded us for *Nephrolepis Piersoni*.
The only Gold Medal ever awarded by the Society of American Florists.

TERMS

To customers of approved credit 60 days' credit will be given, unless otherwise agreed upon, or 3 per cent. discount for cash within 15 days from date of invoice, or 5 per cent. discount where cash is remitted with order.

All accounts remaining unpaid when due are subject to sight draft without further notice. New customers desirous of opening accounts with us must give satisfactory references as to their responsibility. Prices subject to change without notice. *LIBRARY*

VIEW OF ONE OF OUR FIELDS OF LILIUM LONGIFLORUM IN BERMUDA

Lilium Harrisii Now ready for delivery.

Nothing that can be handled is more profitable than *Lilium Harrisii* when well grown, as there is a good and sure demand for it at all times. We are very particular about the Harrisii that we handle. Our stock is not picked up indiscriminately from small growers, but is grown for us by only a few selected growers whose stocks are healthy and free from disease. Our bulbs have never been finer than they are this season. For Christmas-flowering bulbs should be potted as early in August as they can be procured. For this purpose our 6 to 7-inch size is preferable, as this size can be brought into bloom much earlier than the larger bulbs. When forced for Christmas, they require a temperature of at least 65 degrees at night.

NOTE—We desire to call particular attention to the fact that we do not offer 5 to 7-inch bulbs as usually sold, but selected bulbs, measuring 6 to 7 inches, thus giving a much better grade of bulbs than is offered by other houses.

VERY FINE BULBS AT VERY LOW PRICES!

6 to 7-inch bulbs (350 to the case), \$4.00 per 100, \$30.00 per 1,000	7 to 9 " " (200 " " "), 7.50 " " 65.00 " " thousand rates.
9 to 11 " " (100 " " "), 15.00 " " 135.00 " " thousand rates.	

Callas Now ready for delivery.

CALIFORNIA-GROWN BULBS.

Our stock will be found to be of very superior quality. Our bulbs are grown for us by one of the most careful and experienced growers on the Pacific coast. They are very carefully cured, and are perfectly sound, with good, strong centres—an important consideration. Florists will find that these dormant bulbs produce much finer flowers and in greater abundance than plants that have been flowered from year to year—the difference in results being so great that it well repays the seeming expense of an outlay for bulbs each year. It will be found to be cheaper to buy new bulbs than to carry over old bulbs from year to year.

Selected bulbs, $1\frac{1}{2}$ to $1\frac{3}{4}$ in. in diameter, \$6.00 per 100, \$50.00 per 1,000.
 Mammoth " $1\frac{3}{4}$ to 2 " " 8.00 " " 70.00 " "
 Exhibition " 2 to $2\frac{1}{2}$ " " 10.00 " "

Freesia Refracta Alba Now ready for delivery.

Very large quantities of these bulbs are now grown for winter-flowering, as they are very useful and profitable, especially for small florists who sell their own flowers. The earlier this stock is planted, the better results will be obtained.

Selected bulbs, $\frac{3}{4}$ to $\frac{3}{4}$ in. in diameter, \$0.75 per 100, \$6.00 per 1,000.
 Mammoth " $\frac{3}{4}$ in. and up 1.00 " " 9.00 "

Lilium Longiflorum (Bermuda-grown)

Now ready for delivery.

Longiflorum is preferred to *Harrisii* by many growers for growing for sale as pot plants for Easter, as the foliage is considerably heavier, forming a more compact and better furnished plant when standing alone. Many growers prefer Bermuda-grown Longiflorum to Japan-grown Longiflorum, as it gives them a longer season in which to bring them into bloom for Easter, and they are more certain to flower in time, as the Bermuda-grown bulbs can be furnished in August, while the Japan-grown bulbs cannot be supplied until October. Those who have had difficulty in getting in the Japan-grown bulbs in time should use the Bermuda-grown bulbs. Large growers who grow whole houses of lilies have no difficulty in getting the Japan bulbs in flower in time for Easter, but small growers who cannot give them the necessary heat and special attention very often have trouble in getting the Japan-grown bulbs in bloom in time.

7 to 9-inch bulbs (200 to the case), \$7.50 per 100, \$65.00 per 1,000.

Full case lots at thousand rates.

Lilium Longiflorum (Japan-grown)

Ready for delivery early in October.

These are being planted very largely by many growers, as they can be purchased for considerably less than the Bermuda-grown bulbs. They have been extensively planted the past season on account of the high price of the Bermuda bulbs, and some growers prefer them. We offer very carefully selected stock of the very finest Japanese bulbs obtainable.

7 to 9-inch bulbs (300 to the case), \$5.00 per 100, \$40.00 per 1,000.

9 to 10 " " (200 " " "), 8.00 " " 70.00 " "

Full case lots at thousand rates.

Lilium Longiflorum Multiflorum

This is a selected type, blooming much earlier and flowering more abundantly than the regular type of Japan Longiflorum. It is only a little more expensive than the ordinary Longiflorum, but is more than worth the difference in cost, as it blooms much more evenly and flowers much more abundantly.

7 to 9-inch bulbs (300 to the case), \$5.50 per 100, \$45.00 per 1,000.

9 to 10 " " (200 " " "), 8.50 " " 75.00 " "

Full case lots at thousand rates.

Lilium Longiflorum Giganteum

This flowers much more freely than *Multiflorum*, and the flowers are larger and longer and have more substance. It is distinguished by its dark brownish stem. Growers should give this a careful test. It should be grown cool until the buds are set, after which it will stand any amount of forcing.

7 to 9-inch bulbs (300 to the case), \$7.00 per 100, \$60.00 per 1,000.

9 to 10 " " (200 " " "), 12.00 " " 100.00 " "

Full case lots at thousand rates.

Lilium Candidum (The Annunciation Lily)

Now ready for delivery.

This is still used for forcing in some localities where it is a favorite. It is also very desirable for planting outdoors in connection with hardy shrubbery, etc., as it is as hardy as can be. There is nothing more beautiful in hardy plants, and it should be used largely for outdoor planting. It grows about four feet high, bearing large clusters of medium sized flowers, delightfully fragrant. As it starts into growth very early in the fall, the earlier it is ordered in the fall, the better results will be obtained.

Extra selected bulbs, \$5.00 per 100, \$40.00 per 1,000.

	" 9 to 11 " "	8.00 "

Gladiolus Colvilli Alba "The Bride"

Ready for delivery in October.

Flowers pure white. Of dwarf habit. Invaluable for forcing and for outdoor blooming. It is being more and more largely planted, as it is one of the most useful cut flowers that can be grown.

\$1.00 per 100, \$7.00 per 1,000.

Astilbe, or Spirea

Ready for delivery in November.

Gladstone. —New. This is by far the best of all the Spireas for winter-flowering. No other Spirea compares with it in any way. It flowers in immense feathery snow-white plumes, which are very freely produced. This not only makes fine specimens when flowering singly, but three clumps in a 12-inch pot make magnificent Easter plants. We are now enabled to offer this hitherto expensive variety at a very low price, and it is worth very much more than the difference in price.

Extra strong clumps, \$11.00 per 100, \$22.00 for case of 250 clumps.

Japonica. —Large imported clumps, grown especially for forcing. \$5.00 per 100, \$10.00 for case of 250 clumps.

Compacta Multiflora. —More compact than *Japonica*; an extra fine variety for forcing. \$6.00 per 100, \$12.00 for case of 250 clumps.

Astilboides Floribunda. —A very strong grower, and quite distinct from *Japonica* or *Compacta Multiflora*, and preferred by many for Easter forcing. Flowers are pure white, very large and feathery. \$5.50 per 100, \$11.00 for case of 250 clumps.

AM. GARD

SPIREA—GLADSTONE

Photograph of a House of our Premier Valley

Lily of the Valley

Ready for delivery in November.

Pierson's Perfection. —This is an extra selected grade for those who desire the finest Valley grown, and is the grade that should be used for very early forcing. Price of Valley has been driven down so low that it has been at the expense of quality, and growers are beginning to realize that a really first-class article cannot be furnished at prices at which Valley has been selling. The very best German Valley grown has been sent to London and St. Petersburg to growers who have been willing to pay the price for a very superior article, and very few, if any, of the finest pips grown have reached this country; but there is beginning to be a demand here for a better grade of Valley than is generally offered, and in order to meet this demand, we are importing this grade of pips, which we have had selected for us with great care, and which are the very finest pips grown. They will produce the largest spikes, with the largest number of bells, and will give the very largest percentage of first quality flowers. This grade of Valley is more than worth the difference in price to every grower; and we can recommend it without hesitation, knowing that it will give perfect satisfaction.

\$1.75 per 100, \$15.00 per 1,000, \$35.00 per case 2,500 pips.

Pierson's Premier. —This is a very fine selected Valley—a grade under *Perfection*—and can also be used for early forcing. For those who want a superior article at a moderate price, this grade will give very satisfactory results. We have sold large quantities of it, and buyers have always been very well satisfied. It is good value at the price charged, and much better than extra quality three-year-old German pips generally handled, and can be forced earlier.

\$1.50 per 100, \$13.00 per 1,000, \$30.00 per case 2,500 pips.

Extra Quality. —This is the standard quality three-year-old German pip generally sold, and is the quality usually handled in this country by most dealers. It is as good Valley as can be handled at the price. It should never be used for very early forcing, but for late forcing will give very good results.

\$1.25 per 100, \$11.00 per 1,000, \$25.00 per case 2,500 pips.

Cold-Storage Lily of the Valley

Now ready for delivery.

We have a fine stock of cold-storage Lily of the Valley of our very choicest *Perfection* grade for summer and fall forcing. While new importations of high grade can be forced for Christmas-flowering, buyers will find the cold-storage Valley very much more satisfactory for very early forcing than newly-imported pips, as newly-imported stock will not give the requisite amount of foliage until after January 1st, so that the cold-storage Valley will be found preferable for very early forcing. After January 1st, new importations can be used.

\$10.00 per case 500 pips, \$17.50 per case 1,000 pips, \$37.50 per case 2,500 pips.

DUTCH HYACINTHS.

Ready for delivery
in September.

SELECTED NAMED.

This is the grade that should be used for pot culture or for growing in pans where flowers of highest quality are desired. The bulbs offered are of the largest size and finest quality obtainable. The varieties offered are the finest and those best adapted for winter-flowering or bedding, producing the largest and most perfect spikes and the most beautiful flowers.

Our selection of varieties, \$5.50 per 100, \$45.00 per 1,000.

FINE NAMED.

We recommend this grade particularly for bedding, and it is also very satisfactory for forcing. The bulbs are a size smaller than the Selected Named, but can be offered at only a slight advance over the price of Mixed Hyacinths in Separate Colors, and, consequently, are much more desirable; for when bedded out or used for forcing, they bloom evenly and at one time, while the mixed hyacinths, no matter how carefully selected, bloom more or less irregularly and unevenly.

We were awarded GOLD MEDAL, Highest Award, For Our Exhibit of Bulbs at the Pan-American Exposition, Buffalo, 1901.

Miniature Hyacinths, or Dutch Romans.

Ready for delivery in September.

These *Dutch Romans* are valuable, not only for cutting, but also for growing in pans. They can even be used for bedding where a cheap hyacinth is desired, producing surprisingly large spikes of bloom, considering the size of the bulbs. We offer only the finest named sorts, which bloom evenly and at one time—those that have been found most satisfactory for forcing, and those that produce the largest spikes of bloom and of the most desirable colors. The bulbs are of the largest size and of first-class quality, and the prices at which they are offered should not be compared with the prices of inferior grades or of mixtures in separate colors usually offered, which bloom more or less irregularly, while our named sorts bloom evenly and at one time, making them very much more desirable and valuable.

EXTRA SIZED BULBS, 12 TO 14 C/M IN CIRCUMFERENCE.

FOR GRAPE AND FEATHERED HYACINTHS, SEE PAGE 9.

Roman Hyacinths.

Now ready for delivery.

The crop of French bulbs, especially in the larger sizes, is short this season, owing to a long drouth which prevailed in France, but having purchased a large quantity very early in the season, we were able to buy at much lower prices than had we purchased later, and, in consequence, are pleased to be able to offer bulbs at much lower prices than last year. The bulbs that we offer are of the very finest quality, obtained from the very best sources, carefully packed and graded, so that they cannot fail to give the very best satisfaction.

White Romans.—Extra quality bulbs, 12 to 15 c/m in circumference, \$2.75 per 100, \$23.00 per 1,000.
Selected bulbs, 13 to 15 c/m in circumference, \$3.25 per 100, \$28.00 per 1,000.

Pink Romans.—These are somewhat later than *White Romans*. They are very popular on account of their beautiful color—light flesh-pink.
Flowers are semi-double. Extra quality bulbs, 12 to 15 c/m in circumference, \$2.75 per 100, \$25.00 per 1,000.

White Italians or Red-Skinned Romans.—Very desirable for late forcing, with much heavier flower spikes than *White Romans*.
Extra quality bulbs, 12 to 15 c/m in circumference, \$2.75 per 100, \$25.00 per 1,000.

WHITE ROMAN HYACINTHS.

CRIMSON RAMBLER ROSES.—We can supply a grand lot of this valuable rose, extra strong field-grown plants, with fine canes four feet or more in length. Extra heavy stock. Ready in November. \$16.00 per 100.

TULIPS.

Ready for
delivery in
September.

FINEST VARIETIES FOR FORCING AND BEDDING.

Gold Medal, Highest Award, Pan-American Exposition, May, 1901.

On this page is a photograph showing part of our large exhibit of tulips at the Pan-American Exposition. We planted there about fifty thousand bulbs, which when in flower in May were a revelation to all who saw them, and which, as the *Florists' Review* expressed it, was the "greatest display of tulips ever seen outside of Holland." The varieties used in our exhibit were Artus, Joost van Vondel, Rosamundi Huykman, Bizard Verdict, Cardinal's Hat, Duc van Tholl Scarlet, Wapen van Leiden, Couleur Ponceau, Rachel Ruisch, Cottage Maid, Keizerskroon, L'Immaculée, Chrysolora, Duchesse de Parma, Crimson King, and Yellow Prince. These were planted in large masses of solid colors, producing a striking effect.

On the following page, in the upper left-hand corner, we give a view of the largest bed, containing over thirteen thousand bulbs. The lower photograph shows some of the other beds, with the Horticultural Building in the background. Altogether, our exhibit created a sensation, and was one of the chief attractions at the opening of the Exposition in May. We received the highest award for tulips, both on account of the extent of the exhibit and the high quality of the flowers.

The use of tulips for bedding for early spring-flowering is increasing from year to year, for nothing that can be planted gives such satisfactory returns for the outlay. The use of named varieties is constantly on the increase, as they are much more effective when planted in solid blocks, in separate colors, than when planted indiscriminately. We offer a large variety of the very finest sorts for bedding, and at prices which will permit the use of named varieties, as a great many of the kinds offered cost only a little more than mixed tulips, for which reason and the fact that they are much more effective when planted separately, we invariably advise their use, especially when planted in quantity. All the varieties offered are desirable for bedding, but all are not desirable for forcing. The descriptions indicate those best adapted and most valuable for forcing for winter.

SINGLE EARLY TULIPS.

Artus.—A fine scarlet tulip for bedding; also very good for forcing. A little later than *Crimson King* or *Belle Alliance*. **\$1.25 per 100, \$10.00 per 1,000.**

Belle Alliance (Waterloo).—Brilliant scarlet. An extra fine forcing variety. **\$2.00 per 100, \$18.00 per 1,000.**

Bizard Verdict.—Bright red, feathered, striped, and bordered with bright yellow. A fine variegated tulip. **80c. per 100, \$6.00 per 1,000.**

Cardinal's Hat.—Dark brownish red,—somewhat like *Brutus*, but darker,—edge of petals shading to orange. A little later than *Crimson King* or *Belle Alliance*. **90c. per 100, \$7.00 per 1,000.**

Chrysolora.—Pure golden yellow; extra large. Finest yellow tulip for bedding. **\$1.00 per 100, \$8.00 per 1,000.**

Cottage Maid.—An exquisite color,—lovely bright pink, heavily marked with white at centre and base of petals. The finest pink tulip for bedding, also an extra fine late forcing variety; cannot be forced early. Extra. **\$1.00 per 100, \$8.00 per 1,000.**

Couleur Cardinal.—Dark scarlet-crimson,—about the color of a *Meteor* rose. Flower is large, long, and pointed. Extra fine for forcing. **\$3.00 per 100, \$27.00 per 1,000.**

Couleur Ponceau.—Bright cherry, base of petals pure white,—an exquisite color. A fine bedder. **\$1.00 per 100, \$7.50 per 1,000.**

Crimson King.—Crimson-scarlet; very brilliant. Fine bedder, also good for late forcing. **\$1.25 per 100, \$11.00 per 1,000.**

Duc van Tholl, Scarlet.—Intense dazzling scarlet. Very desirable for early forcing. **1.25 per 100, \$10.00 per 1,000.**

Duchesse de Parma.—Orange-red, with yellow edge. Very showy. A good force and a fine bedder. **\$1.00 per 100, \$8.00 per 1,000.**

Joost van Vondel.—Wine color, feathered with white,—an unusually striking and distinct color. Flower very large, with very long stem. Grand. **\$1.25 per 100, \$10.00 per 1,000.**

Joost van Vondel, White.—The largest and finest of all white tulips. Magnificent for bedding or late forcing. **\$3.25 per 100, \$28.00 per 1,000.**

Keizerskroon (Grand Duc).—Red, heavily bordered golden yellow. Extra large flower. **\$1.50 per 100, \$12.50 per 1,000.**

La Reine (Queen Victoria).—White, slightly shaded pink. A favorite forcing variety, and fine for bedding. **90c. per 100, \$7.00 per 1,000.**

L'Immaculée.—Pure white. A fine bedding tulip, also a fine early forcing variety. Can be forced for Christmas. Almost as early as *Duc van Tholl, Scarlet*. **85c. per 100, \$6.50 per 1,000.**

Mon Tresor.—Pure yellow; an extra fine large flower. A little deeper yellow and a little larger flower than *Chrysolora*. **\$1.75 per 100, \$15.00 per 1,000.**

Pottebakker Yellow.—Yellow, with light scarlet stripe. **\$1.25 per 100, \$10.00 per 1,000.**

Pottebakker White.—Finest white forcing tulip; also extra fine for bedding. Extra large flower. Very early. **\$1.50 per 100, \$12.00 per 1,000.**

Pottebakker Scarlet (Verboom).—Dark crimson-scarlet. Excellent for forcing or bedding. **\$1.75 per 100, \$14.00 per 1,000.**

Prince of Austria.—Bright orange-scarlet. Strong grower and very large flower. Extra fine for forcing or bedding. **\$2.75 per 100, \$24.00 per 1,000.**

Princess Marianne.—A very large white tulip, slightly tinged pink. An excellent variety for bedding. **\$1.00 per 100, \$8.50 per 1,000.**

Proserpine.—Violet-rose—a lovely color. Extra large and extra fine for early forcing especially, and also extra fine for bedding. **\$2.75 per 100, \$24.00 per 1,000.**

Rachel Ruisch.—A fine pink tulip for bedding. Bright pink, base and centre of petals white; a little lighter than *Rose Griselin*. Large flower, with fine stem. We recommend this variety especially for bedding, and it is also good for forcing. **\$1.25 per 100, \$9.00 per 1,000.**

Bird's-eye View of our Exhibit of Tulips at the Pan-American Exposition

View of one of our Beds of Tulips at Pan-American Exposition, containing 13,000 Bulbs

SINGLE LATE TULIPS.

These late tulips are exceedingly fine for planting in borders of shrubbery, and, if possible, should be planted where they can be left from year to year. They grow taller than the early varieties, and the flowers are larger and showier also than other tulips. Their season of blooming is very long. They come into bloom in May, after other tulips are gone, and are in full bloom Decoration Day. They are desirable for cut flowers, but on account of being late bloomers are of no use for forcing.

Bizards.—Very showy flowers, beautifully blotched, striped, and feathered with crimson, pink, scarlet, rose, lilac, and purple on yellow ground. All colors mixed, **90c. per 100, \$7.00 per 1,000.**

Byblooms.—Flowers beautifully blotched, striped, and feathered with crimson, pink, scarlet, rose, lilac, and purple on white ground. All colors mixed, **\$1.00 per 100, \$8.00 per 1,000.**

Bouton d'Or.—Pure yellow. Remains in bloom three weeks, flowers increasing in size as they grow older. Exceedingly fine. A grand thing. **\$1.25 per 100, \$9.00 per 1,000.**

Darwins.—These are what are termed *selfs*, or solid colors, and are mostly dark shades, no whites or yellows among them. They are valued because they are very late. They grow very tall, with very strong stems. All colors mixed, **\$1.50 per 100, \$13.00 per 1,000.**

Gesneriana Spathulata.—This is the true *Gesneriana* and the finest of all late tulips. Flower is very large; dark brilliant scarlet, with black centre. **\$1.50 per 100, \$13.00 per 1,000.**

Golden Crown.—Sometimes called *The Yellow Gesneriana*. Yellow, with scarlet edge. Very showy. **90c. per 100, \$7.00 per 1,000.**

Picotee (Maiden's Blush).—A magnificent tulip. White, beautifully margined and beautiful. **\$2.00 per 100, \$16.00 per 1,000.**

Parrots.—Very singular and beautiful, both in shape and markings. Very highly colored. Markings are not dissimilar to the brilliant plumage of parrots, which suggested the name.

Admiral of Constantinople.—Orange-scarlet.

Lutea Major.—Golden yellow.

Perfecta.—Yellow, scarlet stripe.

Markgraft van Baden.—Inside of flower orange-yellow; outside striped scarlet.

\$1.25 per 100, \$10.00 per 1,000.

Parrots.—All colors mixed, **\$1.00 per 100, \$7.50 per 1,000.**

DOUBLE TULIPS.

Count of Leicester.—Orange-yellow. Earlier than *Yellow Rose*. **\$1.00 per 100, \$8.50 per 1,000.**

Couronne d'Or.—Yellow, shaded orange. Extra fine for forcing. **\$2.75 per 100, \$24.00 per 1,000.**

Duke of York.—Carmine, edged white. Good for forcing. **\$1.00 per 100, \$8.50 per 1,000.**

Gloria Solis.—Crimson, with yellow margin. Fine bedder; one of the showiest tulips for this purpose; also a fine forcing variety. Very similar to *Tournesol Red and Yellow* in color; cannot be forced so early. **\$1.50 per 100, \$12.00 per 1,000.**

Imperator Rubrorum.—Very fine bright scarlet. Finest of all double scarlets for forcing. **\$2.50 per 100, \$22.50 per 1,000.**

La Candeur.—Pure white. Fine for bedding, and also for Easter forcing. **\$1.25 per 100, \$10.00 per 1,000.**

Lady Grandison.—Bright scarlet. Very early. Fine for bedding. **\$1.25 per 100, \$10.00 per 1,000.**

Lady Palmerston.—Bright rose. Fine for bedding. **\$1.75 per 100, \$15.00 per 1,000.**

Le Blason.—Delicate rose, shaded and striped white. **\$1.50 per 100, \$12.00 per 1,000.**

Mariage de ma Fille.—White, striped cherry red. Extra fine late variety. The largest double tulip. **\$2.00 per 100, \$16.00 per 1,000.**

Murillo.—A magnificent flower, blush white, shaded rose. Large fine flower. Extra for forcing. **\$2.00 per 100, \$18.00 per 1,000.**

Paeony Red.—Fine scarlet for bedding; late; blooms with *Yellow Rose*. **\$1.25 per 100, \$10.00 per 1,000.**

Rex Rubrorum.—Extra fine scarlet for bedding. Large, full, double flower. Produces a strong contrast when planted with *La Candeur*. Very effective. **\$1.50 per 100, \$13.00 per 1,000.**

Rose Blanche.—Pure white. Very early; earlier than *La Candeur*. **\$1.00 per 100, \$8.50 per 1,000.**

Salvator Rosa.—Deep rose, flamed white. Highly recommended for very early forcing. **\$3.50 per 100.**

Tournesol Red and Yellow.—Scarlet, bordered yellow. Extra fine for forcing. Exceedingly showy. **\$1.75 per 100, \$14.00 per 1,000.**

Tournesol Yellow.—Pure yellow. Extra fine for early forcing. **\$2.75 per 100, \$24.00 per 1,000.**

Yellow Rose.—Bright yellow. Late. **\$1.00 per 100, \$7.50 per 1,000.**

Finest Mixed.—Extra choice mixture from named varieties. All colors. **\$1.00 per 100, \$8.00 per 1,000.**

Partial View of our Exhibit of Tulips at Pan-American Exhibition, showing Horticultural Building in the Background.

NARCISSUS.

LARGE SINGLE TRUMPETS.

Ready for delivery
in September.

Empress. —A magnificent variety, white perianth with rich yellow trumpet. Flowers large and of great substance. Similar to *Horsfieldi*, but larger and a stronger grower. **\$2.25 per 100, \$20.00 per 1,000.**

Emperor. —Deep yellow trumpet, sulphur perianth. Immense. The finest of this section. **\$1.75 per 100, \$15.00 per 1,000.**

Golden Spur. —A magnificent single trumpet narcissus with enormous flowers of deep golden yellow. Very early. **\$2.00 per 100, \$17.50 per 1,000.**

Grandee (Maximus). —Yellow trumpet, white perianth, broad petals. Late flowering; dwarf. Extra fine. **\$1.50 per 100, \$12.00 per 1,000.**

Horsfieldi. —Large golden yellow trumpet and pure white perianth. A grand variety for early forcing. **\$1.75 per 100, \$15.00 per 1,000.**

Henry Irving. —Magnificent flower with large golden yellow trumpet beautifully frilled; perianth broad and wide, overlapping. **\$1.50 per 100, \$13.00 per 1,000.**

Principes (*The large Irish Single Yellow Trumpet Daffodil*). —Magnificent large blooms; light sulphur-yellow trumpet, with lighter perianth. Can be forced very early. A very profitable variety for florists on account of its earliness and the low price at which the bulbs can be offered. **90c. per 100, \$7.00 per 1,000.**

Single Von Sion. —We recommend this strongly in place of *Trumpet Major*, especially for early forcing. Very early—much earlier than *Trumpet Major*,—deeper yellow, larger flower, and a much better bloomer. The best pure yellow moderate-priced single trumpet narcissus. **\$1.25 per 100, \$10.00 per 1,000.**

Trumpet Major. —Flower large, deep golden yellow. Highly prized for forcing and bedding. A favorite sort. **\$1.00 per 100, \$8.00 per 1,000.**

Trumpet Major (French-grown) for Christmas-flowering. Now ready.—Desirable, other varieties are in the market. For this purpose it should be started very early, during August or early in September. **\$1.50 per 100, \$12.00 per 1,000.**

DOUBLE FLOWERED.

Double Von Sion, or Double Yellow Daffodil.

This is one of the most useful and profitable of winter-flowering bulbs, and is forced in large quantities. There is nothing in which quality is so important as in Von Sions—color and form of flower, size of bulb, etc. The flower of the stock we offer is the pure golden yellow. Those who have been troubled with "Green Von Sions" should try our stock. Growers will find it will pay to buy the best Von Sions obtainable.

Selected mammoth double-nosed, or top-root, bulbs, **\$2.25 per 100, \$20.00 per 1,000.**

Extra sized bulbs, **\$1.50 per 100, \$12.00 per 1,000.**

Alba Plena Odorata. —Double; pure white gardenia-like flowers, exquisitely scented. **75c. per 100, \$5.50 per 1,000.**

Incomparable fl. pl. (*Butter and Eggs*). —Full double golden flower, with orange centre; good forcer. **90c. per 100, \$7.00 per 1,000.**

Orange Phoenix (*Eggs and Bacon*). —Double; white flowers with orange nectary. **\$1.25 per 100, \$9.00 per 1,000.**

Silver (Sulphur) Phoenix (*Codlins and Cream*). —Sulphur-white. Extra fine. **\$2.25 per 100, \$20.00 per 1,000.**

PAPER WHITE GRANDIFLORA.

Now ready for delivery.

Much larger and better than the ordinary variety, blooming in larger clusters and coming into flower earlier. The bulbs that we offer are of the very finest quality obtainable.

Extra quality bulbs, 13 c/m and up in circumference, 1,250 bulbs to the case, **\$1.25 per 100, \$10.00 per 1,000.**

Selected bulbs, 14 c/m and up in circumference, 1,000 bulbs to the case, **\$1.50 per 100, \$12.00 per 1,000.**

EMPERESS NARCISSUS.

PAPER WHITE GRANDIFLORA NARCISSUS.

MISCELLANEOUS SORTS.

Barri Conspicuus. —Beautiful canary-yellow, with deep golden cup richly edged orange-scarlet. Flowers three to three and a half inches in diameter, borne on long stems. Fine for forcing or outdoor planting. **\$1.00 per 100, \$8.00 per 1,000.**

Incomparable Stella. —White star-shaped flower, with yellow cup. One of the most beautiful and most easily forced of all the narcissus. **75c. per 100, \$5.00 per 1,000.**

Poeticus (*Pheasant's Eye*). —Pure white with red cup. Very useful for cutting in spring, and it can be planted in borders out-of-doors, where it is perfectly hardy, and will bloom year after year. **60c. per 100, \$4.00 per 1,000.**

Poeticus Burbidgei. —A very early-flowering variety of *Poeticus*, blooming a month earlier. Pure white, cup edged with orange-scarlet. Very fine for forcing and outside planting. **75c. per 100, \$5.00 per 1,000.**

Poeticus Ornatus. —*The Improved Poeticus*. Pure white with scarlet ring; much finer in form and much earlier than *Poeticus*. A magnificent cut flower. This is becoming more and more largely used for forcing. **75c. per 100, \$5.50 per 1,000.**

JONQUILS.

Giant Campernelle Jonquil Rugulosus. —Much larger and finer than the old favorite *Campernelle Jonquil*, a much freer bloomer, and much more desirable, especially for forcing. Beautiful single yellow star-shaped flower, beautifully imbricated, borne in clusters of four to six on a stem, delightfully fragrant. Also very hardy, and invaluable for outdoor planting. **75c. per 100, \$5.50 per 1,000.**

Double Jonquil. —Bears clusters of small very double deep golden yellow flowers, very sweetly perfumed. A favorite for forcing and outside planting. **\$1.00 per 100, \$8.00 per 1,000.**

CHINESE SACRED LILY.

Ready in October.

(*Narcissus orientalis*). —A favorite bulb for retailing, as it makes a fine house plant, and is one of the best selling bulbs for this purpose. We offer the finest quality bulbs, grown in China, insuring a luxuriant growth and a remarkable profusion of flowers. Single basket (30 bulbs), **\$1.50**; original bundle, containing four baskets (120 bulbs), **\$4.80**; full thousand lots, **\$35.00 per 1,000.**

ALLIUM NEAPOLITANUM.

60c. per 100, \$4.50 per 1,000.

ANEMONES.

The Bride.—Single. Pure white. 50c. per 100, \$4.00 per 1,000.
 Single.—All colors mixed. 50c. per 100, \$4.00 per 1,000.
 Double.—All colors mixed. 75c. per 100, \$6.50 per 1,000.

CHIONODOXA LUCILIAE

(Glory of the Snow).

Deep blue, with white centre. 75c. per 100, \$6.50 per 1,000.

DIELYTRA SPECTABILIS

(Bleeding Heart).

Ready for delivery in November.

Strong Clumps.—\$8.00 per 100.

GRAPE AND FEATHERED HYACINTHS.

Blue Grape.—50c. per 100, \$3.00 per 1,000.

White Grape.—75c. per 100, \$6.00 per 1,000.

Feathered.—75c. per 100, \$6.00 per 1,000.

SPANISH IRIS.

Fine for late forcing; can be had in flower early in April. Also good for outdoor culture, flowering in the open ground in June, requiring only a slight covering in winter. Claimed by many to be entirely hardy. They are so beautiful that they should be extensively planted.

Belle Chinoise.—Bright golden yellow. Early. Best early sort.
British Queen.—Early. White. Finest white.

Darling.—Dark blue. Early.

Gold Cup.—Darkest bronze. Largest variety. Extra fine.
 50c. per 100, \$4.00 per 1,000.

Extra fine mixed varieties. All colors, 35c. per 100, \$2.00 per 1,000.

IXIAS.

Finest Mixed.—Very showy and brilliant; well adapted for cut flowers and pot culture. Splendid new large-flowering varieties.
 50c. per 100, \$3.00 per 1,000.

OXALIS.

Bermuda Buttercup.—This has met with a very large sale, as it is an ideal house plant. Blooms all winter long. Flowers are of good size; bright golden-yellow. We offer extra sized Bermuda-grown stock. 75c. per 100, \$6.00 per 1,000.

Alba.—White. 75c. per 100.*Bowenii*.—Pink; large. \$1.00 per 100.*Versicolor*.—Red and white. 75c. per 100.**DOUBLE RANUNCULUS.**

French.—All colors mixed. 50c. per 100, \$3.00 per 1,000.

Persian.—All colors mixed. 50c. per 100, \$4.00 per 1,000.

Turban.—All colors mixed. 75c. per 100, \$5.00 per 1,000.

SCILLA.*Siberica*.—Bright blue; early. 75c. per 100, \$6.00 per 1,000.*Campanulata Cerulea*.—Blue; tall.
 50c. per 100, \$4.00 per 1,000.**SNOWDROPS** (*Galanthus*).

Single.—75c. per 100, \$5.00 per 1,000.

Double.—\$1.25 per 100, \$10.00 per 1,000.

Giant (Galanthus Elwesii).—75c. per 100, \$5.00 per 1,000.**SPARAXIS.**

50c. per 100, \$3.00 per 1,000.

CROCUS. Ready in September.**MAMMOTH BULBS.**

These are extra large selected bulbs, averaging $1\frac{1}{2}$ in. and up in diameter. Varieties offered are also of the very finest quality. They are very desirable for forcing, and these large bulbs are much finer for bedding than smaller bulbs, as they throw an unusually large number of flowers.

Mont Blanc.—Snowy white.*David Rizzio*.—Dark blue.*Mammoth Yellow*.—Deep golden yellow.

50c. per 100, \$4.00 per 1,000.

La Majestueuse.—Violet, striped white.*Purpurea Grandiflora*.—Dark purple; very largest size. Magnificent.**FINE NAMED VARIETIES.**

These are first sized bulbs and a first-class article where moderate priced crocus is wanted. We offer them at the same figure for which mixed crocus in colors can be bought, enabling buyers to plant them in solid blocks or to make their own mixtures, insuring an equal assortment of colors.

Prince Albert.—Dark purple.*Sir Walter Scott*.—Violet, striped white.*Baron von Brunow*.—Purple blue.

40c. per 100, \$3.00 per 1,000.

Large Yellow.—Pure golden yellow.*Mont Blanc*.—Snowy white.**SEPARATE COLORS.**—Blue, White, Yellow, Striped. 30c. per 100, \$2.00 per 1,000.**ALL COLORS MIXED.**—25c. per 100, \$2.00 per 1,000.

LARGE FLOWERED MAMMOTH CROCUS.

FANCY-LEAVED CALADIUMS.

FANCY-LEAVED CALADIUMS.

Ready in December.

We can supply a fine assortment of the very choicest named varieties, very distinct and very desirable—strong dormant bulbs of large size. These bulbs are grown out-of-doors, and will be found superior to greenhouse-grown plants. Tubers are full-sized, undivided, and are strong and healthy.

Extra sized bulbs, \$12.00 per 100.

CALADIUM ESCULENTUM.

Ready in December.

Bulbs 6 to 9 in. in cir. \$3.00 per 100, \$25.00 per 1,000.
 " 9 to 12 " " 6.00 " 50.00 "

TUBEROSE PEARL.

Ready in December.

Our bulbs are grown in the South, where the climate and soil are peculiarly adapted for their perfect development, and the stock we offer is the finest to be had anywhere.

Extra quality bulbs, \$1.00 per 100, \$7.50 per 1,000.

Tuberous-Rooted Begonias.

Ready in December.

Having made arrangements with one of the largest and finest growers of Tuberous Begonias in Europe to supply us with his entire product, we are enabled to offer these bulbs at unusually low prices. Bulbs are first-class, running $1\frac{1}{4}$ inch in diameter and up. The quality of the flower, notwithstanding the low price, is unusually fine. There is no finer stock to be had in Europe. Buyers will find it cheaper to buy here at our prices than to import their own stock direct.

Separate colors—white, pink, scarlet, yellow, and crimson.**Double**.—\$5.00 per 100, \$40.00 per 1,000.**Single**.—\$3.00 per 100, \$25.00 per 1,000.**GLOXINIAS.**

Ready in December.

We handle these very largely, and our strain of *Hybrida Crassifolia Erecta Grandiflora* is unequalled, embracing an unusual proportion of spotted, white, pink, and other choice colors. Bulbs are of large size.

Finest Mixed.—\$4.00 per 100, \$30.00 per 1,000.**Separate Colors**.—White; red; blue; red, bordered blue; white, bordered blue. \$5.00 per 100.**DAHLIAS.**

We have a superb collection of dahlias, finest named sorts, comprising **cactus** and **decorative**, **large-flowering** or **show**, **small-flowering** or **pompon**, and **single-flowering** varieties. When selection of varieties is left to us, customers can rely on receiving a fine assortment. In ordering, state which classes are wanted, or, if desired, we will make up a collection comprising all the different classes. **Finest named sorts**, \$8.00 per 100.

GLADIOLI.

Ready in December.

White and Light.—\$1.75 per 100, \$15.00 per 1,000.**Scarlet and Red**.—\$1.25 per 100, \$9.00 per 1,000.**Yellow and Orange**.—\$5.00 per 100.**Pink and Rose**.—\$1.50 per 100, \$12.00 per 1,000.**Striped and Variegated**.—\$2.50 per 100, \$20.00 per 1,000.**Groff's Hybrid Seedlings**.—All colors mixed; the most popular strain in America. \$1.75 per 100, \$15.00 per 1,000.**Childsii**.—Giant hybrids, mixed. \$2.00 per 100, \$18.00 per 1,000.**Lemoine's Hybrids**.—Finest mixed. \$1.50 per 100, \$12.00 per 1,000.**Extra Superfine Mixed**.—\$1.25 per 100, \$9.00 per 1,000.

HARDY ROSES.

Frau Karl Druschki.—This is a queen among white roses. Flowers are of the largest size, pure snowy white, with very long buds, shell-shaped petals, opening large and full and of the most beautiful form. A continuous and free-blooming variety. Undoubtedly the finest hardy white rose in cultivation. **\$3.00 per dozen, \$18.00 per 100.**

Mrs. R. G. Sharman-Crawford.—Deep rose pink, outer petals shaded pale flesh. Very large flowers, freely produced. Blooms from very early until late in autumn. Awarded gold medal National Rose Society, England. **\$2.50 per dozen.**

Capt. Hayward.—Very large. Bright carmine-crimson. Very choice.

Soleil d'Or.—Superb conical-shaped buds, varying in color from gold and orange-yellow to reddish gold. The flower when expanded is very full, large, and globular. Awarded first prize at the Paris Exposition and numerous gold medals throughout Europe.

Margaret Dickson.—White, with slight tinge of satiny rose; large and of excellent form. A superb variety.

Ulrich Brunner.—An elegant flower, finer every way than *Gen. Jacqueminot*; bright cherry; exquisite.

Baroness de Rothschild.—Light pink, sometimes shaded with rose; very large; cupped form. Good exhibition sort.

Paul Neyron.—A grand rose. The flowers are immense, dark rose color, double and handsomely formed. Blooms all the season, and is unusually strong and vigorous.

Gen. Jacqueminot.—Bright crimson-scarlet, exceedingly rich and velvety. The buds and partly expanded flowers are beautiful. A strong grower and free bloomer.

Magna Charta.—Immense flowers. One of the largest roses grown. Rich dark pink. Superb.

Mrs. John Laing.—One of the finest varieties, blooming almost constantly. The buds are long and pointed, of the most beautiful shape; the open flowers large, full, and double, borne on long, straight stems. A lovely shade of delicate pink, exquisitely fragrant.

Madame Gabrielle Luizet.—A fine satin rose, inlaid with silvery rose, heightened at the centre. One of the sweetest and most beautiful roses.

Marshall P. Wilder.—Crimson-vermilion; exquisitely shaded and richly perfumed.

Gloire de Paris (*Anne de Deisbach*).—A most lovely shade—clear, bright rose; very large and fragrant.

Baron de Bonstetten.—Velvety maroon, shaded with deep crimson; very dark and rich in coloring, and a grand rose in every respect.

Prince Camille de Rohan.—One of the richest dark crimson roses. It resembles *Gen. Jacqueminot* very much, but is much darker in color.

Capt. Christy.—Delicate flesh with rosy centre. Very free bloomer. Extra.

Fisher Holmes.—Flowers crimson-scarlet; large, full, and of perfect form. Free-blooming and vigorous. Very beautiful.

Jules Margottin.—Carmine-rose. Large and full. Very free bloomer.

Perle des Blanches.—A very free-blooming white variety. Flowers of medium size, very full and double, blooming in clusters.

Alfred Colomb.—Brilliant carmine-crimson, of fine globular form. Very fragrant.

Persian Yellow.—Bright yellow—a color very scarce among hardy roses. Foliage is sweetly scented like the *Sweet Briar*.

Blanche Moreau.—By far the best white moss rose. Long, pointed buds, beautifully mossed.

Chapeau de Napoleon, or Crested Moss.—Beautiful clear pink. Buds crested, and heavily mossed.

Rugosa Rubra.—Deep rose. **Rugosa Alba.**—Pure snowy white. **\$2.00 per dozen, \$12.00 per 100, except where noted.**

MONTHLY AND HYBRID TEA.

Mildred Grant.—A magnificent hybrid tea with exceedingly long, pointed, conical buds. White, tinted shell pink. Foliage very large and leathery. A grand variety. **50c. each.**

Killarney.—This rose has created a sensation not only as a winter-flowering variety, but expert rosarians claim it to be, without exception, the finest of all roses for outdoor culture. It is perfectly hardy and a constant bloomer. Buds are of exquisite color and shape,—lovely silvery pink, long and pointed. **Strong fieldgrown plants, \$3.50 per dozen, \$25.00 per 100.**

Souv. de Pres. Carnot.—Lovely color—outer petals white, centre petals delicate flesh-pink. Extra fine. **Strong fieldgrown plants, \$3.00 per dozen, \$18.00 per 100.**

Mme. Abel Chatenay.—A splendid ever-blooming hybrid tea. Carmine-rose, shaded deep salmon. Very vigorous, and a constant and abundant bloomer. **Strong fieldgrown plants, \$3.00 per dozen, \$18.00 per 100.**

American Beauty.—Deep rose. Very large and full. Exquisitely fragrant. Constant bloomer. **La France.**—Silvery rose, with a satiny sheen. No variety can surpass it in delicate coloring. Blooms continuously.

Gruss an Teplitz (*Crimson Hermosa*).—Flowers richest scarlet, shading to velvety crimson. The reddest of all red roses. Constant bloomer.

Maman Cochet.—Magnificent pink, almost identical with *Bridesmaid* in form and color. Buds of as high quality are produced out of doors as can be grown under glass in winter. One of the grandest outdoor roses.

White Maman Cochet.—Buds long, pointed, pure snowy white. Identical in every respect with *Maman Cochet* except color.

Belle Siebrecht.—Dark carmine-pink, very rich. Flowers large and beautifully formed. Long, tapering buds. Very fragrant.

Hermosa.—Deep pink. An old-time favorite. One of the showiest and most satisfactory roses for bedding.

Mme. Caroline Testout.—An exquisite pink rose; buds of loveliest shape and color. Blooms constantly from spring to fall.

Kaiserin Augusta Victoria.—A grand white constant blooming summer rose, with buds of the largest size, pure white, and of ideal form.

Gloire de Dijon.—A combination of rose, salmon, and yellow. Very large and full. Universally popular.

Lady Mary Fitzwilliam.—Delicate rose. **\$2.50 per dozen, \$16.00 per 100, except where noted.**

Extra Strong Two-Year-Old Fieldgrown Plants.

Ready for delivery in December.

Photograph of a Bed of Crimson Rambler Roses Exhibited by us at the Pan-American Exposition. When in full bloom it was estimated there were not less than 300,000 flowers open at one time.

BABY RAMBLER, or MME. NORBERT LEVAVASSEUR.

New dwarf perpetual-flowering Crimson Rambler, growing from one and a half to two feet high, blooming when very small, bearing clusters of flowers as large as Crimson Rambler, identical in form and color. As a bedding rose it is unequalled, especially so, as it blooms constantly throughout the summer. The grandest introduction in roses since Crimson Rambler, and will prove even more valuable than that phenomenal variety. A grand acquisition. A first-class addition to plants for Easter forcing.

Extra strong fieldgrown plants, \$3.50 per dozen, \$25.00 per 100.

Selected heavier plants, \$5.00 per dozen.

CRIMSON RAMBLER.

Nothing equals this variety as an all-round hardy garden rose, on account of its brilliant color, profusion of bloom, and length of time the flowers last. It may be used as a climber, or may be grown in large bush form; or, by tying down, can be used for bedding, and when grown in this way is the showiest of all roses. See illustration. We handle this in large quantities, and have a magnificent stock. **\$12.00 per 100; selected heavier plants, \$16.00 per 100.**

New Pink Rambler DOROTHY PERKINS.

A pink climbing rose which is as popular as Crimson Rambler. It has exactly the same habit, the foliage is identical, and it is alike remarkable for the great freedom with which the flowers are produced. The only difference is in the color, Dorothy Perkins being a beautiful shell-pink. Valuable not only as a climbing rose, but a grand rose for bedding and also for forcing.

\$2.50 per dozen, \$16.00 per 100.

New Single Rambler Rose LEUCHTSTERN.

This new single rose is exceedingly showy and attractive. It is a wonderfully free bloomer, with large single flowers, bright rose, with a large white eye. Habit of growth and foliage are similar to Crimson Rambler. **Extra heavy plants, 35c. each, \$3.50 per dozen.**

STANDARD, OR TREE, ROSES.

Crimson Rambler.—Nothing is so well adapted for growing in standard form. It makes one of the most attractive plants imaginable. **\$6.00 per dozen.**

Hybrid Perpetuals, Assorted Named.—Finest assortment. **\$5.00 per dozen, \$35.00 per 100.**

Azaleas.

Ready for delivery in October.

Next to the Easter lily these are the most important plants for Easter decoration. We shall have to offer from October until Easter a fine assortment of plants, with fine crowns, well shaped and well budded. *Orders will be booked at these special low import prices for delivery in October and November.* Orders should be placed at once, so that advantage can be taken of these low import prices before prices advance later in the season, and while the plants can be shipped by freight, as early in the season plants travel as safely by freight as by express, and at a great saving in cost of transportation. These prices will hold good only for early shipment, as we cannot afford to sell at these prices later on, after plants have been potted and put into winter quarters for spring sale. We handle only the very finest varieties, and our selection will be found to contain the very finest sorts, either for commercial purposes or private conservatories.

Apollo.—Orange-scarlet. Can be forced for Christmas.

Bernhard Andrea Alba.—Double. Pure white. Late.

Deutsche Perle.—Double. Pure white. Very early.

Empress of India.—Double. Variegated white and salmon-rose. One of the best late sorts.

Madame Joseph Vervaene.—Similar in color to *Vervaeneana*. Especially good in large sizes. Finest of all in this color for Easter.

Madame Van der Cruyssen.—Double. Bright rose—a very desirable and popular color.

Strong plants, 10 to 12 in. in diameter,	\$4.80 per dozen,	\$35.00 per 100.
12 to 14 "	6.00 "	45.00 "
14 to 16 "	7.20 "	55.00 "
16 to 18 "	12.00 "	
18 to 20 "	24.00 "	

Dwarf, or Miniature, Azaleas.

These dwarf azaleas, which have been grown as novelties for the past year or two, are rapidly coming into favor, and are now in great demand.

Firefly, or Hexe.—Very brilliant crimson. Splendid. **Chas. Encke.**—Beautiful shade of pink. \$3.60 per dozen, \$25.00 per 100.

Azalea Mollis.

This is largely used in Europe, and is being more largely used in this country for forcing. The colors are entirely different from the Chinese azaleas offered above,—colors ranging through yellow, orange, and red.

Fine bushy plants, well budded, 12 to 15 in. high, \$4.80 per dozen, \$35.00 per 100.

Partial view of our Exhibit of Bay Trees at the Pan-American Exposition. The above picture represents the "Chariot Race," one of the most beautiful groups of statuary in the Exposition, surrounded by a portion of our exhibit of Bay Trees, interspersed with large specimens of Hydrangea Otaksa in flower.

Rhododendron Maximum and Kalmia Latifolia.

PYRAMIDAL BOX.

Rhododendrons for Forcing.

READY IN NOVEMBER.

These are becoming more and more important for winter and Easter flowering, and are largely used for this purpose. There is nothing that makes a finer or showier plant when in full bloom than these fancy highly-colored rhododendrons. They last much longer than azaleas, and should be grown largely, especially for Easter. They also make extra fine plants for Decoration Day. By hard forcing they can be had in bloom by midwinter. We offer a collection of the very choicest and best varieties for this purpose.

Catawbiensis grandiflora—Beautiful violet.

Chevalier F. de Sauvage—Fine crimson.

Duchess of Edinburgh—Crimson.

Fastuosum flore plena—Lavender.

John Walter—Crimson.

Kate Waterer—Rose, with yellow centre.

Lady Clementine Walsh—Delicate lilac.

Lalla Rookh—Dark rose. Fine.

\$12.00 per dozen, \$90.00 per 100.

For hardy hybrid rhododendrons for outdoor planting, see our List of Hardy Shrubs and Trees.

Pot-Grown Lilacs.

Ready in November.

We offer the best varieties for forcing for winter flowers—*Marie Legraye*, *Mme. Lemoine*, and *Charles X.* Fine plants, well budded, \$7.50 per dozen, \$50.00 per 100.

Bay Trees (*Laurus Nobilis*).

We were awarded GOLD MEDAL, Highest Award,

For Our Exhibit of Bay Trees at the Pan-American Exhibition, Buffalo, 1901, where they were largely used, forming one of the principal features of the horticultural exhibit.

Standards, 7 ft. high, about 3 ft. in diameter, \$10.00 each; 3 1/2 ft. in diameter, \$15.00 each;

4 ft. in diameter, \$20.00 each; 5 ft. in diameter, \$40.00 each.

Pyramids, about 3 1/2 ft. in diameter, \$15.00 each; about 4 ft. in diameter, \$20.00 each.

Boxwood.

There is a large demand for these beautiful decorative plants. They make beautiful specimens, foliage being dark olive green, and are desirable for many purposes, as they are not as expensive as bay trees. They are not only used as decorative plants for the same purpose as bay trees, but are also used in formal outdoor planting, being perfectly hardy.

Pyramids, 3 ft. high, \$2.00 each; 3 1/2 ft. high, \$2.50 each; 4 ft. high, \$3.50 each.

Bush form, 3 ft. high, \$2.00 each; 3 1/2 ft. high, \$2.50 each; 4 ft. high, \$3.50 each.

Standard, or tree, heads about 1 1/2 ft. in diameter, \$2.00 each; 2 ft. in diameter, \$3.00 each.

Dwarf Boxwood for Edging.—We have a large stock of this of extra fine quality, and can supply it in quantity. Plants 4 to 6 in. high, \$5.00 per 100, \$40.00 per 1,000.

Boxwood for Edging.—Extra heavy plants for immediate effect, very broad and bushy, 12 in. high, sheared. \$6.00 per dozen, \$45.00 per 100.

These are now largely used in all extensive plantings, and we are prepared to furnish a very superior quality of stock in carload lots at very low rates. We can supply magnificent plants, well budded, ranging in height from two to six feet.

VARIEGATED LAWSON CARNATION.

BEGONIA GLOIRE DE LORRAINE.

This is one of the showiest and most beautiful of all plants that can be grown for the Christmas holidays, for which purpose it has become indispensable. It is easily grown, and makes one of the brightest and prettiest of all plants at the holiday times, when it is in great demand, plants being made up in various shapes and forms, commanding a ready sale at high prices. The photograph shown herewith gives a good idea of its beauty. It is so well known to every florist that a description is hardly necessary. When in bloom the plants are a wealth of beautiful bright pink blossoms. We have a fine stock of this. Young plants potted up in August and September make fine plants for holiday trade, and if very large specimens are not wanted, they can be started even later than this.

Strong plants, 2½ inch pots, \$15.00 per 100.

**BEGONIA TURNFORD HALL,
The New White Gloire de Lorraine Begonia.**

This new white begonia is identical with Gloire de Lorraine except color. Instead of being pink, the flowers are a delicate apple-blossom color—ivory white, tinted and blushed light delicate pink. A fine novelty and a very useful decorative plant, its delicate coloring producing exquisite effects.

Strong plants, 2½ inch pots, \$25.00 per 100.

GARDENIA VEITCHII.

This has become indispensable for winter-blooming. The flowers are in great demand, and bring phenomenal prices. *Veitchii* is the best of all the gardenias for winter-flowering, blooming much more freely than any other variety during midwinter. We have an extra fine stock.

Strong bushy plants, 6 inch pots, \$50.00 per 100.

NEW MARGUERITE QUEEN ALEXANDRA.

This beautiful new anemone-flowered Marguerite, or Paris daisy, is a beautiful novelty. Flowers are pure white, from two and a-half to three inches in diameter, the greater portion of them coming double, not unlike an anemone-flowered Japanese chrysanthemum; the remainder of the flowers on the same plant coming semi-double and some of them single, all of which are very handsome. It is very much more beautiful and very different from the ordinary Marguerite, which has always been a favorite, not only as a cut flower, but as a decorative plant, and we predict for this pretty form a much greater popularity, as every one who sees it is charmed with it.

Strong plants, 2½ inch pots, \$2.00 per dozen, \$15.00 per 100.

VARIEGATED LAWSON CARNATION
A phenomenal variety.

This beautiful carnation, which we introduced this spring, we are sure will prove not only the best variegated carnation ever sent out, but one of the most popular and profitable carnations in any color that has ever been introduced. The popular conception of a variegated flower ordinarily is that it is not so desirable as a solid color, but Variegated Lawson has proved an exception to the rule, on account of its exceeding beauty and delicacy. If our own retail sales are any index of the popularity of a variety, then Variegated Lawson is bound to be a winner, as the flowers of this sold more readily than those of any other variety.

Aside from its inherent value, it will also be sought for on account of the sensation which it created last season in the newspapers, its merits having been heralded widely in the daily press all over the country. The variegation is very beautiful—delicate carmine pencilings on ivory-white ground. It has every good quality—beautiful flower, fine stiff stem, and is exceedingly productive. W. N. Craig, who is an authority on everything pertaining to horticulture, says he knows that it will outbloom that popular variety, Mrs. M. A. Patten, three to one. The variegation is very similar, but Variegated Lawson has a much better stem and is much more productive. It has the Lawson habit and stem.

White Lawson, which we introduced last year, has proved to be the best white carnation ever put on the market, and we are satisfied that Variegated Lawson will be grown just as largely. Those who are growing moderate quantities of carnations and are obliged to grow several varieties in a house, will find it decided to their advantage to plant the different Lawson sports, as they all require the same treatment, and, consequently, will give the best results. A great many carnations are short-season varieties, but Variegated Lawson, like the rest of the Lawson type, has a long season, as the flowers do well during the late spring and summer, when many varieties cease to be at their best.

Fieldgrown plants from ground, \$15.00 per 100.

MARIE LOUISE VIOLETS**For winter-blooming.**

This is the best of all double winter-flowering violets. We make a specialty of these, and can furnish fine plants ready for planting out for winter-flowering,—fine, strong, healthy plants entirely free from disease, in perfect health.

Strong plants from ground, \$6.00 per 100.

BEGONIA GLOIRE DE LORRAINE.

PALMS AND OTHER DECORATIVE PLANTS

We desire to call particular attention to the fact that our palms are not forced in high temperatures, but are grown cool. Most of our stock is grown out of doors all summer in lath houses, so that it is very hardy, and will give much better satisfaction than stock that has been forced and grown in high temperatures.

We should be very glad to have customers visit our Scarborough Nurseries, where our palms are grown, and examine our stock and make their own selection. Where this is not convenient, orders sent by mail will receive personal and careful attention, and we will guarantee perfect satisfaction.

COCOS WEDDELIANA.

COCOS WEDDELIANA.

This dainty little palm makes a fine table plant, and is largely used for the centre of fern pans, for which purpose nothing is so delicate and beautiful.

Fine plants, 3-in. pots, **\$3.00 per dozen.**

ARAUCARIAS.

Small plants grown in pots are most desirable for table and decorative purposes generally. Plants resemble miniature evergreens of perfect symmetry and elegant proportions.

Excelsa. —*Norfolk Island Pine.* This is the variety that has become so popular for commercial purposes for house culture and conservatory decoration.

Fine plants, about 12 in. high, **75c. each.**

ARAUCARIA.

FICUS ELASTICA.

LATANIA BORBONICA (Fan-Leaf Palm).

This is one of the most popular and reliable hardy palms for indoor decoration. It is a rapid grower, and is very satisfactory in every respect. We offer a fine lot of medium and large sized plants. Florists will find the largest sizes offered very useful for decorating.

Fine plants, 6-in. pots, 1½ ft. high	\$1.00 each
" 7-in. " 1½ " " "	1.50 "
" 8-in. " 2 " " "	2.00 "
" 9-in. " 2½ " " extra heavy	3.00 "

ASPIDISTRA LURIDA VARIEGATA.

This is the most durable plant, grown for indoor decoration. It will grow and do well under conditions that would be sure death to many other plants. It flourishes in sunshine or shade, does not mind dust or dry air, and can stand a good deal of cold.

Fine plants, 7-in. pots, well colored, **\$2.00 and \$3.00 each.**

KENTIA FORSTERIANA.

FICUS ELASTICA (Rubber Plant).

This certainly is one of the best plants grown for decorative purposes. We have a grand stock. Plants are grown from top cuttings, and have large, perfect, full-sized leaves right to the pot, and are in grand shape.

Strong plants, 4-in. pots, 10 to 12 in. high,	\$3.00 per dozen.
" 5-in. " 1½ ft. " " "	4.20 "
" 6-in. " 1½ " " "	6.00 "
" 6-in. " 2½ " " "	9.00 "

The larger sized plants offered below will be found very useful for decorating or for any other purpose where large plants are desirable. They are splendid for hotels and many other places where large plants at a moderate cost are desired. Plants are very bushy, and are very cheap at the prices at which they are offered.

Large bushy specimens, 12-in. pots, 3½ ft. high,	\$3.00 each.
" 12-in. " 4½ " " "	4.00 "
" 12-in. " 5 " " "	5.00 "
" 12-in. " 6 " " "	7.50 "

LATANIA BORBONICA.

Buy during September and October, when plants can be shipped with perfect safety by freight, saving express charges later in the season. Remember 5% can be deducted from all prices in this catalogue when cash accompanies order.

Photograph of a specimen plant of the Pierson Fern, showing the feathery, plume-like fronds.

Adiantum Croweana.

This fine Adiantum originated with Mr. Peter Crowe, and has been held by him for his own use for growing for the cut flower market on account of its exceptional value and the great profit that he has derived from the sale of the fronds. It has proved so profitable with him that he has devoted his entire place to it for some time, as it has paid him better than any other crop that he could grow. As grown by him, the stems are twice as long and the fronds twice as large as the best *Adiantum cuneatum*. It has brought twice the price of *Adiantum cuneatum*, on account of its much longer stems and larger fronds, and also on account of its greater hardness. While it retains all the beauty and gracefulness of *cuneatum*, the fronds are much harder, and can be kept longer. The leaf stalks grow eighteen inches or more in height, with large fronds. The fact that it has brought twice the price of *cuneatum* in the cut flower market will be the best index of its value.

Extra fine plants, 5-in. pots, fine for immediate use or growing on, \$6.00 per dozen.

ASPARAGUS SPRENGERI.

This has now become very popular, and is exceedingly valuable for growing for cutting for foliage. No other green that can be grown is so fine, especially to use with carnations. It grows rapidly, keeps well, customers like it, and it is very profitable. It also makes a grand plant for house decoration, and when grown in large sizes, say 6-inch pots or larger, makes one of the finest and most salable house plants.

Strong plants, 2½-in. pots, \$3.00 per 100.
Extra strong plants, 3½-in. pots, \$8.00 per 100.

ASPARAGUS PLUMOSUS NANUS.

One of the most profitable and useful plants now grown; as easily grown as *Smilax*, of which it has largely taken the place, as it is very much more beautiful and desirable in every way. It is grand when grown in long strings, and also makes a very useful pot plant.

Strong plants, 2½-in. pots, \$4.00 per 100.
Extra strong plants, 3½-inch pots, \$10.00 per 100.

SMILAX.

This is invaluable on account of its beautiful foliage, which is indispensable in all cut-flower work.
Strong plants, 2½-in. pots, \$3.00 per 100.

The Pierson Fern

(*Nephrolepis Piersoni*)

We have a grand stock of this fine fern in large sized plants, which are exceptionally good value either for house plants or for decorating. These plants are not perfectly characterized, showing some Boston fronds, but are elegant specimens, and will make fine house plants where large plants are wanted, and are particularly fine for decorating. They are very much nicer and fuller than the best *Boston Fern* could possibly be, but not being perfectly characterized, we are offering them at a very low price, as we have so much room given up to our new *Tarrytown Fern* that we want to move a quantity of these during the summer and fall months. Customers who can use this stock will find that it will please them in every respect.

Extra fine plants, 8-in. pots, \$1.00 each.
Extra heavy plants, 10-in. pots, \$2.00 each.
Very large specimens, 12-in. pots, \$3.00 each.

Nephrolepis Scottii

New Dwarf, Compact Boston Fern.

This is a sport from the well-known *Boston Fern*, but is quite distinct from that variety, the fronds being shorter and narrower, and being much more freely produced, making it a very compact, finished plant, particularly in the smaller sizes.

Large specimen plants, 8-in. pots, \$2.00 each.

SMALL FERNS FOR FERN PANS.

The use of ferneries as ornaments for the dinner table is now almost universal. Nothing makes so fine an ornament, and nothing is so well adapted for the purpose. We offer a nice stock of the hardiest varieties, a good collection of the best sorts.

Strong plants, 2½-in. pots, \$4.00 per 100.

PIERSONI ELEGANTISSIMA.

PIERSONI.

BOSTONIENSIS.

Photograph showing how the fronds of the three varieties of *Nephrolepis*, shown above, differ.

NEPHROLEPIS PIERSONI ELEGANTISSIMA

(THE TARRYTOWN FERN)

INTRODUCED BY US IN 1905.

This marvelous fern is a sport from the Pierson Fern (*Nephrolepis Piersoni*), but is very much more beautiful and of greater commercial value. It is as different from the Pierson Fern as that is from the Boston. The difference in the formation of the fronds of the three varieties is well shown in the photograph on the opposite page. In *Nephrolepis Piersoni elegantissima* the small side pinnae are again subdivided, producing an exquisite and beautiful effect, changing the entire character of the fronds, which measure less than half the length and about twice the breadth of the fronds of the Pierson Fern. The fronds also assume an entirely different form, the side pinnae standing at right angles to the mid-rib of the frond, on edge rather than flat, as is usual, making both sides of the frond equally beautiful—entirely different from any other fern. The photograph on this page of a single frond shows the beauty of the fern as well as any photograph can, but it is necessary to see the plant in order to form a correct idea of its beauty.

The plant is very dwarf, only about half the height of the Pierson Fern, and of very much more compact habit. Taking it altogether, it makes one of the most exquisite plants and one of the most valuable for table and house decoration that has ever been introduced. The cut fronds, on account of their beauty, are in great demand for table decoration, design work,

and for use in boxes of loose flowers. There is nothing in the fern line that is so handsome as this beautiful fern when well grown, well-grown plants making most magnificent specimens. It is the Farleyense of the *Nephrolepis* family, an aristocrat among ferns, and is destined to become one of the most popular.

It has been exhibited before all the leading horticultural societies in this country, where it has been the recipient of the very highest awards. It has received more and higher awards than any other new plant ever before introduced in this country. At the World's Fair, St. Louis, it was awarded a gold medal. We quote the following from the Report of the Judges: "The most elegant and beautiful form of *Nephrolepis* to date. Most beautiful as a pot plant, and having great value as a cut frond for the finest floral work. Worthy of gold medal." As another appreciation of its exceptional value, we would state that last year it was awarded the much-coveted fifty-dollar prize offered by the Horticultural Society of New York for "the best new plant." A list of the principal awards is given on the following page.

While this fern is more beautiful than the finest exotic fern, it is easily grown. It requires different treatment from other ferns. In order to develop it in its full beauty and perfection, it should be grown in the full sunlight, in very rich soil, with plenty of room and air. The temperature best adapted for it is that in which roses are grown—a temperature of about 60° at night. It requires very rich soil, and should be fed liberally in order to develop the beautiful mossy, feathery fronds in full perfection. If a plant becomes potbound or starved, or from any other cause is checked in its growth, it may show the Boston tendency; but when given the right conditions, it makes a most beautiful and perfect plant.

REDUCED PRICES FOR FALL DELIVERY.

Nephrolepis Piersoni elegantissima was introduced by us this spring, and the sales have been more than satisfactory, proving that its great value is understood. The price at which it was introduced was high, and probably many florists felt that it was too expensive a plant for them to handle; but having accumulated a sufficient stock to warrant reducing the price, we are pleased to state that we can now offer small plants for growing on at a price within the reach of all.

As this plant grows so rapidly, florists will find that the small plants offered, if given care and attention, will make money for them more rapidly than any other stock that they can grow.

Extra strong plants, 2½-in. pots,	\$25.00	per 100.
" " " 3½-in. "	50.00	"

LARGE SPECIMEN PLANTS FOR RETAIL FLORISTS

READY FOR IMMEDIATE SALE.

Owing to the demand for large specimen plants ready for immediate use, the supply has only kept up with the demand, and we will not be able to reduce the price on these. Florists will find these large specimen plants readily salable and very profitable. They sell on sight. We have a large stock in the various sizes offered below for fall and winter trade.

Fine specimen plants, 6-in. pans,	\$1.50	each.
" " " 8-in. "	3.00	"
" " " 10-in. "	5.00	"
